## **Scripts**

In order to get the most out of fans, we need to level up our game! That's why scripts are used to be the highest paid method!

This consists of making the subscriber think that something is happening at the moment but in reality, it isn't! Let me explain...

Do you remember the video I've sent?

This is a perfect example of a beginning of script

You see... in this video she tells the sub that she hasn't eaten yet and she asks the "sub" to choose something for her to eat!

This of course is an example, but we can play like this for everything

You can do it in the bath, bed, kitchen, anywhere!!

Let's imagine you are the girl in the video I've sent you and you told the sub that you are relaxing in the shower and you wanted to relax a bit more...

You say:

-Hey honey, so... I'm in the shower right now, just relaxing and I want to know what you are doing?...

The sub response:

Examples...

- I'm watching TV at the moment, can I see your body?

Or

- I'm at work, I can't talk now... (The chatter will engage a bit but we will have to use another script when we gets home)

For the first response (independent of what the sub is doing at the moment) we will engage on that!

## Here is the full script

First Video Mass Message (This is the first message that we will send you everybody so the script can start)

1st Photo - you Covering your "tits" (FREE PPV) (For this you just take a photo of yourself, covering your "tits")

2nd Photo - Showing your tits (10\$) (This one over here, is practically the same photo but now you can show them, and also, make sure you take at least 3 different photos, so it will boost the sub's chance to buy)

1st Video - Showing your tits but covering your "vigina" (20\$) (Here you just record a video of yourself, just showing your "tits' and slightly showing your "pussy", we need to create desire and tension)

2nd Video - 40 sec video of you using the soap, you must use it on your "tits" and "ass" and record everything (40\$) (this will only be a video of yourself showing your tits and ass, while you are cleaning yourself with a soap)

3rd video - 20 sec video of you showring your "vigina" and recording everything (80\$)

4th Video - You have to masturbate yourself (120\$)

3rd Photo - Take a photo of your fingers after masturbating (FREE PPV)

If we do this script in this order, we will get 270\$ from one sub only!!

These are the best ways to get money from them!!

Now I will give you some details about the script!

For these to work you really need to make this as realistic as possible, because we have to make these subs, think you are in the shower!

**IMPORTANT:** To make this "hotter" make sure every part of your body has soap foam

this 🕕

## Some Details:

- For every photo, make a cute face, not a smiley face, a cute one!
- For the 1st Video, You say... "What do you think about my titis?" and you bounce them a little bit!
- Your body must have soap foam

Taking this seriously will guarantee us lots of results!!
